Exercise – Demonstrate the challenges of DevOps

- **Perform an exercise to demonstrate the challenges occurred when not using DevOps**
  - Based on your experiences what are the things that appear to you broken/ time consuming/wasteful
    - Before the release comes to you
    - When the release is with you
    - When the release goes out to production
  - We will combine and put this information into a 3X3 grid

	Broken	Time Consuming	Waste
